

A E DRILLING SERVICES, LLC HEALTH & SAFETY COMPLIANCE

All A E Drilling Services personnel are on annual medical monitoring as required by OSHA for hazardous waste site workers, and are respirator fit tested. Additionally, all personnel receive the 40-hour OSHA safety training and annual 8-hour refresher as required by OSHA 29 CFR Part 1910.120. Respirator fit test certificates and OSHA training certificates are maintained in our files, and copies can be provided upon request. All personnel receive CPR and first aid certification as well. Select employees receive LPS training, railroad and MSHA training, and OSHA construction training.

A E Drilling Services provides a drug free workplace as defined by Federal standards. A copy of our substance abuse policy and employee drug free certification can be provided on request.

A E Drilling Services is committed to safety first and maintains a consistently low EMR rating (0.94 for 2008).
